DEPARTMENT OF MECHANICAL ENGINEERING
SUNY KOREA

Freshman Design Innovation

Course Title: MEC 101 Freshman Design Innovation, Fall 2019 (3 credits)
Instructor: Prof. Y. Eugene Pak, email: eugene.pak@sunykorea.ac.kr
Guest Lecturer on Arduino
Prof. Cornelius Bradter, email: cornelius.bradter@sunykorea.ac.kr
Office: C623

Lecture: Tue/Thu 3:30~4:50 PM
Office: B623, Phone: (032) 626-1815
Office Hours: Mon/Wed 2:00 ~ 3:30 PM (or by appointment)

Course Description:
This course presents an overview of mechanical engineering profession, engineering ethics, basics of computation via correct usage of dimensions, units, and significant digits, and engineering documentation. Furthermore, this course introduces the students to the process of engineering design and provides a project-based design experience wherein the students design, build, and program a micro-controller driven autonomous mechatronic device. In doing so, they are provided an early exposure to the systematic approach to engineering problem solving that brings together fundamental concepts of force, motion, energy, materials, manufacturing processes, and machines & mechanisms as well as basic electronics, sensing & actuation, and computer programming.

Course Main Topics:
1. Mechanical Engineering Profession
2. Mechanical Design
3. Technical Problem-Solving: Units, Conversions, and Significant Digits
4. Forces in Structures and Machines
5. Materials and Stresses
7. Motion and Power Transmission
8. Basic Electronics, Sensing, and Actuation
9. Microcontroller Programming Using Arduino

Textbook:

MEC101 Mechatronics Kit:
Each student needs to have a mechatronics kit to do homework assignments, in-class exercises, and term project for the course. A list of contents of the kit will be available on the course website. More information about providing the kit will be announced (Cost: approximately 80,000 KRW).
Assignments & Deadlines:

- Homework assignments will be assigned in class.
- Homework must be handed in at the beginning of the class on the specified due date unless otherwise stated.
- Homework should be done on A4 sized papers and be stapled neatly on top left corner.
- Do not forget to write your name and ID on the top of the first page.
- You can either hand-write your homework solutions or type them.
- I will NOT accept your homework sent to my email address unless stated.
- Late homework will not be accepted.

Exams:

- Midterm Exam No. 1 (in class)
- Midterm Exam No. 2 (in class)
- Term Project Presentation (in class, open to public), Date TBD (in class)
- One Final Exam on June 16, Tue (3:15~5:45 PM)
  - Term project: Execution of creative design using Arduino kit
  - No make-up exams unless in extreme scenarios with doctor’s note or police report

Grading:

Semester letter grade is based upon your performance in the following categories:

<table>
<thead>
<tr>
<th>Category</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st Midterm Exam</td>
<td>15%</td>
</tr>
<tr>
<td>2nd Midterm Exam</td>
<td>15%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>20%</td>
</tr>
<tr>
<td>Term Project</td>
<td>30%</td>
</tr>
<tr>
<td>Quizzes &amp; Homework</td>
<td>10%</td>
</tr>
<tr>
<td>Attendance</td>
<td>10%</td>
</tr>
</tbody>
</table>

Course Website:

Supplementary materials will be posted on the Blackboard or the course website:

https://blackboard.stonybrook.edu/
https://sites.google.com/sunykorea.ac.kr/cwhan/mec-101

Calculator:

Only NCEES Allowed Calculators will be permitted to be used on all quizzes, midterm, and final exams. Please see the Calculator Policy on Stony Brook and NCEES websites.

<td>Homework and Exams</td>
</tr>
<tr>
<td>the ethics in Engineering</td>
<td></td>
</tr>
</tbody>
</table>

Feb. 25, 2020
Demonstrate proper use of dimensions, units, conversion, and estimation in engineering calculation
Draw free body diagram, analyze static equilibrium
Calculate Stress, Strain, and failure for mechanical components loaded in tension, compression or shear, and fundamental material properties for material selection
Calculate mechanical energy, work, and power
Articulate how the motions of common mechanisms are realized
Analyze and draw basic electronic circuits
Demonstrate Microcontroller programming
Work in a team-based project to design and fabricate an autonomous, microcontroller driven machine

Blackboard

It is required that you use the Blackboard for this course (https://blackboard.stonybrook.edu/). Blackboard is used for facilitation of communications between faculty and students, submission of assignments, posting of the course materials, important announcements, and grades.

SUNY Korea Attendance Policy

1. All SUNY Korea students are required to attend every class.
2. Unexcused absences will significantly affect seriously the student’s final course grade.
3. Students who are absent without a valid excuse (see below) from more than 20% of scheduled class meetings will receive a grade of “F” for the course as follows:
   i) For 150-minute classes meeting once a week, the 4th unexcused absence
   ii) For 75-minute classes meeting twice a week, the 7th unexcused absence
   iii) For 50-minute classes meeting three times a week, the 10th unexcused absence
   iv) For Intensive English (IEC) Courses, students who miss more than 40 hours during a semester will receive a grade of “F” for the course.
4. Students should report the reason for absences to the instructor in advance, or immediately after the absence.
5. Absences may be classified as “excused” at the instructor’s discretion.
6. For an absence to be “excused,” the student must provide the instructor with acceptable documentation for the reason for the absence.
7. The course instructor may excuse the absence if the submitted documentation fulfills the
conditions below:

i) Extreme emergencies (e.g., death in the family)

ii) Major medical reasons with doctor’s note (not minor ailments)

iii) Very important events (e.g., national conferences, official school events)

(8) At the end of semester, the course instructor will submit the class attendance record to the Academic Affairs Office.

Disability Support Services (DSS) Statement:

If you have a physical, psychological, medical or learning disability that may impact your course work, please contact One-Stop Service Center, Academic Building A201, (82) 32-626-1117. They will determine with you what accommodations, if any, are necessary and appropriate. All information and documentation is confidential.

In addition, this statement on emergency evacuation is often included, but not required: Students who require assistance during emergency evacuation are encouraged to discuss their needs with their professors and One-Stop Service Center.

Academic Integrity Statement:

Each student must pursue his or her academic goals honestly and be personally accountable for all submitted work. Representing another person’s work as your own is always wrong. Faculty are required to report any suspected instances of academic dishonesty to the Academic Judiciary. For more comprehensive information on academic integrity, including categories of academic dishonesty, please refer to the academic judiciary website.

Critical Incident Management Statement:

The State University of New York, Korea expects students to respect the rights, privileges, and property of other people. Faculty are required to report to the Office of Judicial Affairs any disruptive behavior that interrupts their ability to teach, compromises the safety of the learning environment, or inhibits students’ ability to learn.

Subject to Change Notice

All material, assignments, and deadlines are subject to change with prior notice. It is your responsibility to stay in touch with your instructor, review the course site regularly, or communicate with other students, to adjust as needed if assignments or due dates change.

Syllabus Disclaimer

The instructor views the course syllabus as an educational understanding between the instructor
and students. Every effort will be made to avoid changing the course schedule but the possibility exists that unforeseen events will make syllabus changes necessary. The instructor reserves the right to make changes to the syllabus as deemed necessary. Students will be notified in a timely manner of any syllabus changes via email or in the course site Announcements. Please remember to check your email and the course site Announcements often.
